ABOUT ME

As a Communications and Networks Engineering student at the National Engineering School of Gabes, I am passionate about IT and web development. I am eager to apply my skills to innovative projects and contribute to their success.

PROJECTS

Diabetes Prediction through Numerical Analysis

Mar 2024 - May 2024

- Uses iterative and direct resolution methods to anticipate the risk of diabetes in individuals.

Creation of the "Bac Guidance Hub" Website

Feb 2024 - May 2024

- Calculates baccalaureate scores, searches for academic programs, and provides information on schools.

Medical Telemonitoring Platform and Electrocardiogram Signal Transfer

Oct 2023 - Jan 2024

- Remote monitoring with SMS and email notifications, ECG analysis for cardiac disorder detection, and remote assistance to reduce medical visits.

COMPETITIONS

JET'IMPACT Competition

1st Place

Nov 2023

- "Recyclorecompense" project focused on revamping waste management in Tunisia, providing innovative solutions to address overflowing landfills and polluted rivers.
