

Wael Gafsi

MASTER'S DEGREE IN
ELECTROMECHANICAL ENGINEERING

ABOUT ME

Motivated and curious engineer, passionate about new technologies and problem-solving. I enjoy continuous learning and tackling diverse challenges in mechanical, electromechanical, and programming fields. I aim to contribute effectively to a dynamic team while growing my professional skills.

EDUCATION

ELECTROMECHANICAL ENGINEERING

Sep 2023 – Jun 2025

National Engineering School of Sfax

MASTER'S DEGREE IN MECHATRONIC SYSTEMS – YEAR 1

Sep 2022 – May 2023

Higher Institute of Industrial Systems of Gabès

DIPLÔME NATIONAL EN GÉNIE MÉCANIQUE : HYDRO-ÉLECTROMÉCANIQUE

Higher Institute of Industrial Systems of Gabès

PROFESSIONAL EXPERIENCES

FINAL YEAR PROJECT – LEONI TUNISIE ,

Feb 2025 – Jun 2025

Improving the Quality and Efficiency of the Tinning Bath:

- Developed an oxidation protection system based on in-depth scientific research.
- Designed a cleaning system supported by multiple experimental studies.
- Implemented targeted automation using Arduino and small-scale equipment.

Enhanced product quality and reduced manual interventions by up to 1/8.

TECHNICIAN INTERNSHIP – ATELIERS AÉRONAUTIQUES DU SAHEL (2AS)

Jul 2024

- Created a quality control module and delivered a comprehensive presentation report.

FINAL YEAR PROJECT – SOFEM

Feb 2022 – Jun 2022

- Designed and manufactured a deformation machine to produce Archimedes screw-shaped parts.
- Simulated the deformation of the machine's blades.
- Conducted structural resistance tests on the machine's exterior.
- Developed the machine's hydraulic circuit (pump and cylinder selection).
- Created the machine's electrical schematic.

TECHNICIAN INTERNSHIP – HYDRO-MECHANICAL WORKSHOP GHACHEM (AHG)

Jul 2021

- Applied corrective maintenance principles to hydraulic equipment and installations.

WORKER INTERNSHIP – CENTRAL METAL INDUSTRY (IMC)

Jul 2020

SKILLS

CAO: CATIA V5, SolidWorks (CSWP, CSWPA-DT, CSWA – Additive Manufacturing), AutoCAD, Autofluid

CAM: Mastercam, TopSolid

Numerical Analysis: Abaqus, Ansys, Fluent, CFX, Fortran, MATLAB Simulink, Automation Studio

Office Tools: Excel, Word, PowerPoint

Autre : Python, C++, Raspberry Pi, TIA Portal, Cura Ultimaker, Arena, STEP 7

LANGUAGES

Arabic: Native

French: Professional

English: Professional

PROJETS ACADÉMIQUES

- **Wind Turbine** – Design and CFD modeling for aerodynamic blade optimization.
- **Additive Manufacturing** – Mechanical prototyping using FDM and CAD.
- **Arduino** – Finger detection and LED control (sensors, embedded electronics).
- **StatisticaX** – Development of statistical analysis software (Cp, Cpk, Cpm).
- **Maintenance Tracking** – Interactive Excel-based system (Pareto, KPIs) for the cable manufacturing industry.

OTHER INFORMATION

Driver's License: Category B

Marital Status: Single

Hobbies: Traveling
